

Tethered Lander

Any combination of:

- DeepBots Control Module
- DeepBots Battery Module
- DeepBots Buoyancy Module

Basic equipment:

- LED lights
- Camera
- Depth Sensor
- 2 x Payload ports
- 12/24V power
- Communication options
- RS232/RS485/CAN/Ethernet

Remote controlled from DeepBots topside software

Tether interface:

- Fiber cable via MUX
- CTD, coaxial and multiconductor cables via cable modem
- Bit rates up to 25Mbit/s depending on cable and length
- Supports online monitoring and control (HD video can be recorded on ROV)
- Depth rating: 11.000 meter
